TELSTRA ANNOUNCES NEW MORE4BUSINESS PLANS

Use Your ABN and SAVE!

Telstra Mobile continually develops mobile communications solutions to help you run your business smarter, more efficiently and more professionally. With companies increasingly making their business mobile, we are committed to tailoring the latest technology to these needs.

Kerry Duncan (pictured) - Director of Solve Communications stated that the new plans offered much more flexibility for business. "When it comes to value and service, Telstra offers more. More choices, great rates and mobile coverage means Telstra is the only choice for your business' mobile service."

Along with great rates, you'll also get Business Options, 'Included Calls' and Monthly Bonuses that could save you money. Join more4business as a member for 12 or 24 months and you could save money with your choice of Business Options.

More than one mobile?

If your business has more than one mobile service on its account, it makes sense to look into more4business Group plan. Grouping all your business' mobile services together on one account can save you money, time and hassle.

- * more4business Group lets you share monthly included calls across all the services—so if one member does not use all their monthly included calls, others in the group can.
- * Pay one low flat call rate of 20.5c per 30 sec. block for each of the services.
- * You'll get a single, itemised bill for all grouped services.
- * Add extra services to your group for just \$20 per service each month.

Conditions apply - call Solve for further details.

Annual Golf Day A Great Success

The Solve Annual Golf Day at Waverley Private Golf Course proved a great success (as evidenced in the group photo). Despite some inclement weather and some dubious golfing talent, the day raised money for the Cancer Council of Victoria. Solve pride themselves on their client relationships whether or not you can play golf. The winners with a final Ambrose score of 17 under were Kevin Naismith, Michael Desantis & George Tzolakis. Special thanks to our major sponsors: CDM, Seimens Mobile, LG ARIA and Electrolux.

Wow! What a mobile

Introducing the next generation Kyocera 7135 smartphone. It's a fully loaded, wireless communication solution. It's a phone, a palm pilot, a portable computer and an entertainment centre, all in one.

- CDMA & PDA - All in One
- Wireless Email Fax & Modem
- Inbuilt MP3 Player
- Large Bright Colour Screen
- HTML & Other Browsers

MONASH GETTING GREAT SERVICE FROM SOLVE
Monash have been dealing with Solve for all of their mobile needs since 1997.

"They bring to us a high level of service" said Gerard Lyons, Business Manager, Network Infrastructure Services - Monash. "Their account management style is well regarded and their turnaround time is very good. They keep us informed on new products relevant to our business needs and we're very pleased with the relationship"

Solve have been working with Monash to develop an internet ordering system to further enhance the relationship and this should be launched in July. Solve have a vast list of corporate clients and testimonials - why not ask about our corporate rates and deals
